MOBILE CLASSIFIEDS!

POST IT NOTE PROSPECTING TOOL

1. Buy some post it notes (super sticky)
2. Create a “self inking rubber stamp”
3. Post your “mobile classified ad” on your post it note.
4. Short ad that “pops” with your web link and phone number.
5. Stick all over the place as you’re doing your thing in town.
6. Driver side windows in parking lots, ATM machines, Movie Rental Vending Machines etc...

Psychology:

A post it note is easy. ANYONE can do this.

You don't “go out to market”... but as you're out doing your thing anyway, you market while you're out.

Let the ad do the work.

Ad drives them out of curiosity to call your number or visit your site.

A phone number is better because when they find the ad, they will have their cell phone with them for a fast and direct response... if they find your voice mail interesting, they will visit your site.

Have your voicemail simply almost just repeat your ad and direct them to your website for more information or to leave THEIR contact info for your call back...

You then simply continue the process as on training site: <http://gst.Visalus.com> .

STARTERS: use your own cell phone + voicemail on your cell.

Advanced: Get a voicemail service number at www.800Link.com
